White Liberation and Self Determination

Hello!

I am the Rev. Matt Hale, director of the Creativity Movement, an international religious organization dedicated to organizing White people to fight for their civil rights, liberties, and self-determination.

We in our movement are non-violent and promote change and progress through legal activism. We believe that one of the most effective ways to enable progress and change for our people is through the dissemination of factual information - which is our purpose in giving you this free booklet.

You most likely have never been presented with this information before, because both the government and the mainstream media have kept these facts from you. Not only will we present the facts to you, but we will also present the reasons why the media and government keep these facts from you.

I urge you to read the following pages carefully and with an open mind. We present these facts to you without putting a spin on them because we believe intelligent people like you can draw their own conclusions. We also present the sources at the bottom of each page and invite you, should you be interested, to confirm these facts for yourself.

Because of limited space, we have presented only the facts and not the solutions. If you are interested in the solution to these problems, we explain in our conclusion what you can do.

Sincerely,

Rev. Matt Hale

Has Financing Israel Come Back to **Burn** America?

“...So we tell the Americans as people, and we tell the mothers of soldiers and American mothers in general that if they value their lives and the lives of their children, to find a nationalistic government that will look after their interests and not the interests of the Jews.

“The continuation of tyranny will bring the fight to America, as Ramzi Yousef and others did. This is my message to the American people: to look for a serious government that looks out for their Interests and does not attack others, their lands, or their honor.

“And my word to American journalists is not to ask why we did that but ask what their government has done that forced us to defend ourselves. It is our duty to lead people to the light.”

Is Illegal Immigration Destroying American Sovereignty?

June 6, 1994 In *The Wall Street Journal*, Dan James wrote:

“Immigrants residing in the U.S. cost U.S. taxpayers more than \$45 billion annually, according to ‘The Costs of Immigration,’ a just-released study by Donald L. Huddle, professor emeritus of economics at Rice University in Houston. Mr. Huddle projects that in the 1993-2002 period the ‘net cost to the taxpayers of all taxpayers of all immigrants [in the U.S.] will total over \$450 billion’... Indeed, Mr. Huddle’s calculation is conservative... for it is predicted on an annual influx of 810,000 legal and 300,000 illegal immigrants, 1.1 million altogether; Tulane University demographer Leon Bouvier projects an inflow of as many as 1.5 million legal and illegal immigrants yearly in the 90’s.”

Prof. Huddle’s study covered a total of 18.1 million immigrants present in the U.S. in 1992... both legal and illegal immigrants, as well as illegals granted amnesty under a 1986 law, refugees, and those granted asylum. The study examined costs at all levels of government that year, above and beyond the taxes they paid. “...The culprit is not Mexico, of course, but the Immigration Act of 1990, which increased legal immigration by 40% and stimulated record illegal immigration. If Congress is serious about making spending cuts, it can begin by repealing the 1990 Immigration law and declaring a moratorium on all immigration until, at least, we have put our finances in order. That would save us \$30 billion, including the cost of currently dependent and future illegal immigrants, of the more than \$45 billion all immigrants cost us annually.”

Mr. Borjas, an economist at the University of California, San Diego, and Stephen Trejo, another economist at the University of Santa Barbara, completed a research paper in 1990 looking on how immigration impacts the welfare system. Its findings dispel the myth widely propagated that only economic benefits arise from rising immigration. The report confirms the widespread perception that unskilled immigrants are particularly prone to entering the welfare system. It states the entry of large numbers of immigrants in the past decades has increased taxpayer expenditures on income transfer programs such as welfare and other social programs. It is quite evident the U.S. has become a “welfare magnet” due to welfare payments being higher than typical income opportunities in many “developing” countries. The two also found that immigrant households receive a higher level of welfare payments than native households!

This “Third World Invasion” seems to be favored by virtually all Republicans and Democrats. The two parties as usual find less controversial issues to deliberate on to entertain the news media. While multinational corporations continue to move domestic jobs out of the country, working-class Americans are finding it hard to compete with floods of immigrants for the few low paying service jobs which remain. Those White American families who are stuck in areas facing immigration problems, such as southern California, not only have trouble finding financial support, but also schooling for their children in a system which is failing due to overpopulation and lack of funds.

Non-White Immigration:

Is it changing the United States into a Third World country?

America's Future?

In 1950 Whites were 89% of America's population. Legal immigration rates have risen from 300,000 per year in 1965 to an annual rate of over 1,000,000 today. Over 90% of these legal immigrants are non-White. By the year 2030 less than 50% of the population under 18 will be White. In 1970, 2,369,000 Hispanics lived in California; now there are over 12,939,000. 53% of all the immigrants who have settled in California since 1973 are on a form of public welfare. Within the decade, the cost of immigration is projected to rise to over \$108 Billion per year.

Facts about Hate Crimes and Minority Violence in America

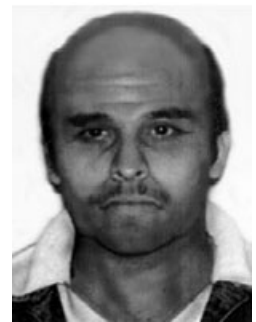

Here are some facts that will shock you. The mainstream media refuses to report these facts even though the information is readily available on a number of political, governmental, and law enforcement websites. The sources will be listed, so you can easily verify these statistics and facts for yourself.

- Of the approximately 1,700,000 interracial crimes involving specifically Blacks and Whites each year, 90% of these crimes were committed by Blacks against Whites.
- Each year Blacks rape approximately 30,000 White women. (Less than 35% of all rapes are reported, putting the true number of black-on-White rapes at closer to 100,000.)
- Approximately 1 in 50 black males is HIV+ or has AIDS.
- Approximately 1 in 4 black males has genital herpes.
- Black males are 15 times more likely to be infected with HIV than White males.
- Blacks are 50 times more likely than Whites to commit individual acts of interracial crime.
- Blacks are 250 times more likely than Whites to commit group or gang interracial violence and crime.
- Blacks commit much more crime and violence against Whites than against other Blacks.
- When committing violent crime, Blacks choose White victims 56% of the time. Only 2% of the time do violent crimes committed by Whites have Black victims.
- Blacks murder Whites at 18 times the rate Whites murder Blacks.
- About 1 million Whites were murdered, robbed, assaulted, or raped by Blacks in 1992.
- Between 1964 and 2001, more than 60,000 White people were killed in interracial murders in the U.S. (Compare this with 58,000 Americans killed in Vietnam and 38,000 killed in Korea.)
- Almost one out of every three black males is in jail, on parole, or facing criminal charges in the American legal system

These statistics show that Blacks commit a grossly disproportionate amount of crime. However, it should be noted that the classification “White” is very misleading because even though mestizo Hispanics and Mexicans are not White and do not even consider themselves White, the FBI includes their crimes among those committed by Whites.

The FBI categorizes Mexicans, Hispanics, and Arabs as White when tallying hate crimes and crime statistics. Victor Manuel Gerena, a Puerto Rican, is classified by the FBI as “WHITE.”
<http://www.fbi.gov/mostwant/topten/fugitives/gerena.htm>

As a consequence, crimes by White people are substantially less than the official numbers would otherwise indicate. What do you think hate crime and violence will be like in 20-30 years when Whites become a minority?

Facts about Race Riots in America

Left: Some of the colorful pictures surrounding the various race riots that have become commonplace in America. Perhaps the White victims lacked “tolerance” or “diversity.”

- Groups of Latinos gang rape White women in New York City while police officers stand and watch.
- Blacks beat defenseless Whites with bricks while buildings are burned and looted in Cincinnati, Ohio.
- One White man is murdered and 12 others hospitalized when groups Blacks go berserk during Mardi Gras in Seattle.

These kind of events unfold when non-Whites gain the upper hand, because police are afraid of being accused of “racial profiling” or of being labeled “racist” by the mainstream media.

As the White population dwindles in comparison to non-Whites, and with police forces becoming more ethnically diverse, stop to think about who will be there to protect you and your children when Whites become outnumbered. Bear in mind that currently, the police in the U.S. are not legally required to protect you from crime; their only job is to enforce the law.

In countries like Zimbabwe (formerly Rhodesia) and South Africa where Whites have allowed themselves to become outnumbered and removed from power, all hope for justice has vanished. The government in Zimbabwe has even implemented a policy of seizing land from White farmers and giving it to Blacks. This problem however is relatively minor when the same farmers and their families are under constant threat of being raped and murdered by roaming black gangs. The black-dominated Zimbabwe government not only refuses to bring these thugs to justice but even denies there is a problem. We must learn from the mistakes made in Rhodesia and secure an existence for White people everywhere.

“Eleven days ago, on April 18, a Black gang burst into the home of a White family just outside Salisbury, now called ‘Harare.’ They seized 28-year-old Brendan Jowett and repeatedly smashed him in the head and face with a brick, until he lost consciousness. They dragged his 25-year-old wife Tonia into a bedroom and gang-raped her. Then they found Tonia’s 18-year-old sister, Laura Wiggins, hiding in a cupboard. They dragged her out and raped her repeatedly.”

Does Race Exist?

**Is it a biological concept...
or just a social construct?
You decide.**

Little known facts:

- There are 30,000 human genes, a number that includes 3.1 billion base pairs.¹
- Population groups (i.e., races) differ in roughly 1 in 500 (or 60 million) of the base pairs.²
- Roughly six percent of genetic variation between any two human individuals on the planet is caused by known racial groupings.³
- The genetic code of Whites and Blacks differs by a full 3.2%.⁴
- The majority of anthropologists believe in the existence of race.⁵
- Population geneticists have demonstrated that even an infinitesimal bit of genetic variation can cause differences in traits such as skin color - indicating that even the slightest genetic variations between populations (races) can cause vast differences in temperament, intelligences, physique, and so on.⁶
- Because anthropologists and population geneticists fear the politically correct thought police, they use synonyms for the word race. These synonyms include: ancestry, cluster, population, statistical collections of alleles, cline, clinal grouping, lineage, and regional pattern.⁷

Definition of Race:

Race, to put it plainly, is simply a major division of the human species grouped by ancestry. Note that race is based on ancestry, not on any arbitrary combination of traits. A White person is racially similar to another White person simply because the two of them have a great deal more recent ancestors in common than they do with Blacks. As Steve Sailer, head of the Human Biodiversity Institute puts it: "A race is simply a lineage. A racial group is simply an extremely extended family that inbreeds to some extent."⁸

Facts About Physical Differences Between Whites and Blacks

Racial Differences are more than skin deep. Below is a list of just a handful.

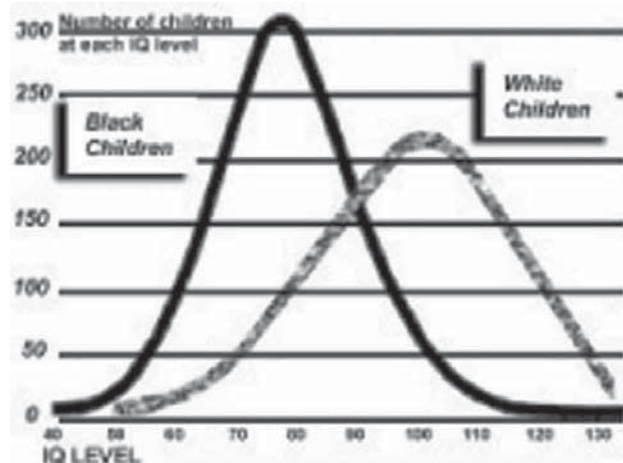

- One in 400 blacks inherits sickle cell, versus only 1 in 1,000,000 Whites.
- Blacks have wider shoulders than Whites.
- Compared to Whites, Blacks have narrower hips.
- Black athletes have less body fat and more muscles than White athletes.
- Blacks have a longer arm span than Whites.
- The hand of a black is relatively longer than the forearm, compared with a White.
- White men have brains 8.2% larger than Black men do.
- Brains of Whites are on average five cubic inches larger than brains of blacks.
- Teenage Blacks demonstrate a significantly faster patellar (knee) tendon reflex time than White teenagers.

In 1999, even though they only made up 12% of the total US population, blacks accounted for 47% of all new AIDS cases in the United States. (This indicates that either blacks are more biologically susceptible to HIV, they are more sexually active, or both. Even the latter explanation, however, arguably is based on biology.)

Quotes on Race

“Nothing is more certainly written in the book of fate than that these people [the Blacks] are to be free, nor is it less certain that the two races, equally free, cannot live in the same government.”

- Thomas Jefferson
(Letter to George Washington, Jan. 4, 1786).

“I can conceive of no greater calamity than the assimilation of the Negro into our social and political life as our equal... We can never attain the Ideal union our fathers dreamed, with millions of an alien, inferior race among us, whose assimilation is neither possible nor desirable.”

- Abraham Lincoln, *after* signing the Emancipation Proclamation
(like other presidents, Lincoln sought to send all the freed Blacks back to Africa).

“The idea that race is ‘only skin deep’ is simply not true, as any experienced forensic anthropologist will affirm.”

- Dr. George W. Gill
Professor of Anthropology, University of Wyoming

“I will say then that I am not, nor ever have been in favor of bringing about in any way the social and political equality of the White and Black races - that I am not nor ever have been in favor of making voters or jurors of negroes, nor of qualifying them to hold office, nor to intermarry with White people...”

- Abraham Lincoln (Fourth Debate with Stephen Douglas at Charleston, Illinois on September 18, 1858, Vol. III, pp. 145-146 of *The Collected Works of Abraham Lincoln*).

“The major cause for American negroes’ intellectual and social deficits is hereditary and racially genetic in origin and thus not remedial to a major degree by improvement in environment.”

- Dr. William Shockley of Stanford University,
Nobel Prize winner

What Is Racism?

The ‘racist’ double standard: how Whites are made to feel guilty and “hateful” for loving their own people and culture.

by Thomas Jackson

There is surely no nation in the world that holds “racism” in greater horror than does the United States. Compared to other kinds of offenses, it is thought to be somehow more reprehensible. The press and public have become so used to tales of murder, rape, robbery, and arson, that any but the most spectacular crimes are shrugged off as part of the inevitable texture of American life. “Racism” is never shrugged off. For example, when a White Georgetown Law School student reported earlier this year that black students are not as qualified as White students, it set off a booming, national controversy about “racism.” If the student had merely murdered someone he would have attracted far less attention and criticism.

Racism is, indeed, the national obsession. Universities are on full alert for it, newspapers and politicians denounce it, churches preach against it, America is said to be racked with it, but just what **is** racism?

Dictionaries are not much help in understanding what is meant by the word. They usually define it as the belief that one’s own ethnic stock is superior to others, or as the belief that culture and behavior are rooted in race. When Americans speak of racism they mean a great deal more than this. Nevertheless, the dictionary definition of racism is a clue to understanding what Americans **do** mean. A peculiarly American meaning derives from the current dogma that all ethnic stocks are equal. Despite clear evidence to the contrary, all races have been declared to be equally talented and hard- working, and anyone who questions the dogma is thought to be not merely wrong but evil.

The dogma has logical consequences that are profoundly important. If blacks, for example, are equal to Whites in every way, what accounts for their poverty, criminality, and dissipation? Since any theory of racial differences has been outlawed, the only possible explanation for black failure is White racism. And since blacks are markedly poor, crime-prone, and dissipated, America must be racked with pervasive racism. Nothing else could be keeping them in such an abject state.

All public discourse on race today is locked into this rigid logic. Any explanation for black failure that does not depend on White wickedness threatens to veer off into the forbidden territory of racial differences. Thus, even if today’s Whites can find in their hearts no desire to oppress blacks, yesterday’s Whites must have oppressed them. If Whites do not consciously oppress blacks, they must oppress them Unconsciously. If no obviously racist individuals can be identified, then societal **institutions** must be racist. Or, since blacks are failing so terribly in America, there simply must be millions of White people we do not know about, who are working day and night to keep blacks in misery. The dogma of racial equality leaves no room for an explanation of black failure that is not, in some fashion, an indictment of White people.

The logical consequences of this are clear. Since we are required to believe that the only explanation for non-White failure is White racism, every time a non-White is poor, commits a crime, goes on welfare, or takes drugs, White society stands accused of yet another act of racism. All failure or misbehavior by non-Whites is standing proof that White society is riddled with hatred and bigotry. For precisely so long as non-Whites fail to succeed in life at exactly the same level as Whites, Whites will be, by definition, thwarting and oppressing them. This obligatory pattern of thinking leads to strange conclusions. First of all, racism is a sin that is thought to be committed almost exclusively by White people. Indeed, a black congressman from Chicago, Gus Savage, and Coleman Young, the black mayor of Detroit, have argued that only White people **can** be racist. Likewise, in 1987, the affirmative action officer of the State Insurance Fund of New York issued a company pamphlet in which she explained that **all** Whites are racist and that **only** Whites can be racist. How else could the plight of blacks be explained without flirting with the possibility of racial inequality?

Although some blacks and liberal Whites concede that non-Whites can, perhaps, be racist, they invariably add that non-Whites have been forced into it as self-defense because of centuries of White oppression. What appears to be non-White racism is so understandable and forgivable that it hardly deserves the name. Thus, whether or not an act is called racism depends on the race of the racist. What would surely be called racism when done by Whites is thought to be normal when done by anyone else. The reverse is also true.

Examples of this sort of double standard are so common, it is almost tedious to list them: When a White man kills a black man and uses the word “nigger” while doing so, there is an enormous media uproar and the nation beats its collective breast; when members of the black Yahweh cult carry out ritual murders of random Whites, the media are silent (see AR of March, 1991). College campuses forbid pejorative statements about non-Whites as “racist,” but ignore scurrilous attacks on Whites.

At election time, if 60 percent of the White voters vote for a White candidate, and 95 percent of the black voters vote for the black opponent, it is Whites who are accused of racial bias. There are 107 “historically black” colleges, whose fundamental blackness must be preserved in the name of diversity, but all historically White colleges must be forcibly integrated in the name of... the same thing. To resist would be racist.

“Black pride” is said to be a wonderful and worthy thing, but anything that could be construed as an expression of White pride is a form of hatred. It is perfectly natural for third-world immigrants to expect school instruction and driver’s tests in their own languages, whereas for native Americans to ask them to learn English is racist.

Blatant anti-White prejudice, in the form of affirmative action, is now the law of the land. Anything remotely like affirmative action, if practiced in favor of Whites, would be attacked as despicable favoritism.

All across the country, black, Hispanic, and Asian clubs and caucuses are thought to be fine expressions of ethnic solidarity, but any club or association expressly for Whites is by definition racist. The National Association for the Advancement of Colored People (NAACP) campaigns openly for black advantage but is a respected “civil rights” organization. The National Association for the Advancement of White People (NAAWP) campaigns merely for equal treatment of all races, but is said to be viciously racist.

At a few college campuses, students opposed to affirmative action have set up student unions for Whites, analogous to those for blacks, Hispanics, etc, and have been roundly condemned as racists. Recently, when the White students at Lowell High School in San Francisco found themselves to be a

minority, they asked for a racially exclusive club like the ones that non-Whites have. They were turned down in horror. Indeed, in America today, any club not specifically formed to be a White enclave but whose members simply happen all to be White is branded as racist.

Today, one of the favorite slogans that define the asymmetric quality of American racism is “celebration of diversity.” It has begun to dawn on a few people that “diversity” is always achieved at the expense of Whites (and sometimes men), and never the other way around. No one proposes that Howard University be made more diverse by admitting Whites, Hispanics, or Asians. No one ever suggests that National Hispanic University in San Jose (CA) would benefit from the diversity of having non-Hispanics on campus. No one suggests that the Black Congressional Caucus or the executive ranks of the NAACP or the Mexican-American Legal Defense and Educational Fund suffer from a lack of diversity. Somehow, it is perfectly legitimate for them to celebrate **homogeneity**. And yet any all-White group - a company, a town, a school, a club, a neighborhood - is thought to suffer from a crippling lack of diversity that must be remedied as quickly as possible. Only when Whites have been reduced to a minority has “diversity” been achieved.

Let us put it bluntly: To “celebrate” or “embrace” diversity, as we are so often asked to do, is no different from **deploring an excess of Whites**. In fact, the entire nation is thought to suffer from an excess of Whites. Our current immigration policies are structured so that approximately 90 percent of our annual 800,000 legal immigrants are non-White. The several million illegal immigrants that enter the country every year are virtually all non-White. It would be racist not to be grateful for this laudable contribution to “diversity.” It is, of course, only White nations that are called upon to practice this kind of “diversity.” It is almost criminal to imagine a nation of any other race countenancing blatant dispossession of this kind.

What if the United States were pouring its poorest, least educated citizens across the border into Mexico? Could anyone be fooled into thinking that Mexico was being “culturally enriched?” What if the state of Chihuahua were losing its majority population to poor Whites who demanded that schools be taught in English, who insisted on celebrating the Fourth of July, who demanded the right to vote even if they weren’t citizens, who clamored for “affirmative action” in jobs and schooling?

Would Mexico - or any other non-White nation - tolerate this kind of cultural and demographic depredation? Of course not. Yet White Americans are supposed to look upon the flood of Hispanics and Asians entering their country as a priceless cultural gift. They are supposed to “celebrate” their own loss of influence, their own dwindling numbers, their own dispossession, for to do otherwise would be hopelessly racist.

There is another curious asymmetry about American racism. When non-Whites advance their own racial purposes, no one ever accuses them of “hating” another group. Blacks can join “civil rights” groups and Hispanics can be activists without fear of being branded as bigots and hate mongers. They can agitate openly for racial preferences that can come only at the expense of whites. They can demand preferential treatment of all kinds without anyone ever suggesting that they are “anti-white.”

Whites, on the other hand, need only express their opposition to affirmative action to be called haters. They need only subject racial policies that are clearly prejudicial to themselves to be called racists. Should they actually go so far as to say that they prefer the company of their own kind, that they wish to be left alone to enjoy the fruits of their European heritage, they are irredeemably wicked and hateful.

Here, then is the final, baffling inconsistency about American race relations. All non-whites are allowed to prefer the company of their own kind, to think of themselves as groups with interests distinct from those of the whole, and to work openly for group advantage. None of this is thought to be racist. At the same time, **whites** must **also** champion the racial interests of non-whites. They must sacrifice their own future on the altar of “diversity” and cooperate in their own dispossession. They are to encourage, even to subsidize, the displacement of a European people and culture by alien peoples and cultures. To put it in the simplest possible terms, White people are cheerfully to slaughter their own society, to commit racial and cultural suicide. To refuse to do so would be racism.

Of course, the entire non-white enterprise in the United States is perfectly natural and healthy. Nothing could be more natural than to love one’s people and to hope that it should flourish. Filipinos and El Salvadorans are doubtless astonished to discover that simply by setting foot in the United States they are entitled to affirmative action preferences over native-born whites, but can they be blamed for accepting them? Is it surprising that they should want their languages, their cultures, their brothers and sisters to take possession and put their mark indelibly on the land? If the once-great people of a once-great nation is bent upon self-destruction and is prepared to hand over land and power to whomever shows up and asks for it, why should Mexicans and Cambodians complain?

No, it is the White enterprise in the United States that is unnatural, unhealthy, and without historical precedent. Whites have let themselves be convinced that it is racist merely to object to dispossession, much less to work for their own interests. Never in the history of the world has a dominant people thrown open the gates to strangers, and poured out its wealth to aliens. Never before has a people been fooled into thinking that there was virtue or nobility in surrendering its heritage, and giving away to others its place in history. Of all the races in America, only whites have been tricked into thinking that a preference for one’s own kind is racism. Only whites are ever told that a love for their own people is somehow “hatred” of others. All healthy people prefer the company of their own kind, and it has nothing to do with hatred. All men love their families more than their neighbors, but this does not mean that they hate their neighbors. Whites who love their racial family need bear no ill will towards non-whites. They only wish to be left alone to participate in the unfolding of their racial and cultural destinies.

What whites in America are being asked to do is therefore utterly unnatural. They are being asked to devote themselves to the interests of other races and to ignore the interests of their own. This is like asking a man to forsake his own children and love the children of his neighbors, since to do otherwise would be “racist.”

What then, is “racism?” It is considerably more than any dictionary is likely to say. It is any opposition by whites to official policies of racial preference for non-whites. It is any preference by whites for their own people and culture. It is any resistance by whites to the idea of becoming a minority people. It is any unwillingness to be pushed aside. It is, in short, any of the normal aspirations of peoplehood that have defined nations since the beginning of history - but only so long as the aspirations are those of whites.

Jewish Media Domination and Why It Matters

The following pages contain facts verifying Jewish media domination in America and how this influence has been used to transform American culture. Most of these facts can be easily verified in any large library or from the web sites of the giant media companies themselves.

“The Hollywood Jews created a powerful cluster of images and ideas... so powerful that, in a sense, they colonized the American imagination... Ultimately, American values came to be defined by the movies the Jews made.”

-Neil Gabler, *An Empire of Their Own: How the Jews Invented Hollywood*.

New York, NY: Crown Publishers, 1988

Quotes by Jews

“Do the Jews run Hollywood? You bet they do — and what of it?”

— Ben Stein, “Do the Jews Run Hollywood,” an article on *EOnline*

<http://www.eonline.com/Features/Specials/Jews/>

“Every time we do something, you warn me that America will do this or America will do that. I will tell you something very clearly: don’t worry about American pressure on Israel. We, the Jewish people, control America, and the Americans know it.”

— Ariel Sharon, Prime Minister of Israel, during an angry outburst in a debate with Israeli Foreign Minister Shimon Perez. (Reported by the Hebrew-language Jerusalem radio station Kol Yisrael, October, 2001.)

http://www.palestine-info.co.uk/daily_news/prev_editions/2001/Oct01/03oct01.htm#2

“Perez and other cabinet ministers then warned Sharon against saying such things publicly, since ‘it would cause us a public relations disaster.’”

(Reported in the Hebrew-language Jerusalem radio station Kol Yisrael, October, 2001.)

http://www.palestine-info.co.uk/daily_news/prev_editions/2001/Oct01/03oct01.htm#2

“It makes no sense at all to try to deny the reality of Jewish power and prominence in popular culture. Any list of the most influential production executives at each of the major movie studios will produce a heavy majority of recognizably Jewish names.”

— Michael Medved, *The American Moment Magazine*, Aug. 1996

<http://www.jeffsarchive.com/media%20control/Jews%20Run%20Hollywood%20-%20So%20What.htm>

“I was shocked to see IDF soliders dragging a bleeding young Palestinian in the streets of Hebron. The shocking image showed our soldiers as sadist who rejoice over the killing of a young man, and drag his body to our settlers to rejoice, dance, exchange candy and kick the not-yet dead body. It reminds me of cheetahs and hyenas, which kill and drag their prey. The problem is that these animals kill to survive. Our soldiers kill to maintain the occupation, an apartheid system.”

— An ex-IDF officer, mentioned in the Jewish daily *Haaretz* in January 2001

http://www.palestine-info.co.uk/press_clipping/pal-children2.htm

“Nations will gather together to bring their homage to the people of God; the whole fortune of nations will pass into the hands of the Jewish people, they will march behind the Jewish people, in chains as captives, and will prostrate before it.”

— Isador Loeb, *Le Probleme Juif*.

“In everything, we are destroyers — even in the instruments of destruction to which we turn for relief... We Jews, we, the destroyers, will remain the destroyers for ever. Nothing that you will do will meet our needs and demands.”

— Maurice Samuel, *You Gentiles*, pages 152, 155, and 147.

Quotes About Jews

“The Jew is by temperament an anti-producer... He is an intermediary, always fraudulent and parasitic, who operates in trade as in philosophy, by means of falsification, counterfeiting, horse-dealing... His policy in economics is entirely negative, entirely usurious.”

—Pierre Proudhon, French socialist writer and philosopher, *Carisme et Christianisme*

“I am aware how almost impossible it is in this country to carry out a foreign policy not approved by the Jews.”

—John Foster Dulles, US Secretary of State under Dwight Eisenhower, Melvin Small, *Democracy and Diplomacy: the Impact of Domestic Relations on U.S. Foreign Policy, 1789-1994*, p. 100

“Israel controls the United States Senate.”

—Senator J. William Fulbright, Chairman of the Senate Foreign Relations Committee, 1973 Bill Kaufman, *America First!: Its History, Culture, and Politics*. Amherst NY: Prometheus Books, p. 152.

“Everyone’s afraid to touch anything that’s religious because most of the people out here are Jewish”

—Country singer Dolly Parton (discussing why her idea for a TV series was turned down by Hollywood), *Vanity Fair*, 1997

“The Talmud taught the Jews to steal the goods of Christians, to regard them as savage beasts, to push them over the precipice... to kill them with impunity and utter every morning the most horrible imprecations against them.”

—Denis Diderot, French revolutionary scholar, *Jufis*.

“From the days of Adam (Spartacus) Weishaupt, to those of Karl Marx to those of Trotsky, Bela Kun, Rosa Luxemburg and Emma Goldman. This world-wide conspiracy for the overthrow of civilization and for the reconstruction of society on the basis of arrested development, of envious malevolence and impossible equality, has been steadily growing...There is no need to exaggerate the part played in the creation of Bolshevism and in the actual bringing about of the Russian Revolution by these international, and for the most part, atheistic Jews. It is certainly a very great one: it probably outweighs all others. With the notable exception of Lenin, the majority of the leading figures are Jews. Moreover, the principal inspiration and driving power comes from the Jewish leaders.”

—Winston Churchill, *Sunday Illustrated Herald*, London, England, February 8, 1920

“Hollywood is run by Jews; it is owned by Jews-and they should have a greater sensitivity about the issue of people who are suffering. Because... we have seen... the greaseball, we’ve seen the Chink, we’ve seen the slit-eyed dangerous Jap, we have seen the wily Filipino, we’ve seen everything but we never saw the kike. Because they knew perfectly well, that that is where you draw the [line].”

—Actor Marion Brando, Larry King Live, April 5th 1996

Does the Jewish Lobby Have Too Much Power Over U.S. Politics?

According to a recent article in the New York Times, American taxpayers have given over \$77 billion to the Jewish country, Israel, since 1967. This massive giveaway program amounts to over \$16,500.00 for every Jew in Israel. (And Americans think the US Treasury is doing them a favor by giving an average of \$300 back to them in a tax refund!)

Much of this massive payment program to Israel comes as a result of efforts by the American Israel Public Affairs Committee, which is the largest of 80-odd Jewish lobbies in Washington. (For an in-depth understanding of the power of Jewish lobby groups, read *They Dare to Speak Out* by Paul Findley, and the well-documented *One Nation Under Israel* by Andrew Hurley.)

The Jewish lobby group AIPAC was voted by Washington, D.C. insiders as the second most powerful lobby in America according to *Fortune* magazine.

<http://www.washington-report.org/backissues/0198/9801065.htm>

Second only to American Association of Retired Persons which has 33 million members and which tries to get Congress to help America's senior citizens, AIPAC represents Jewish interests and the Israeli government and has no interest in America. In fact, AIPAC is so powerful in Washington, D.C. that when someone refers to "the lobby", they all know they're talking about — the AIPAC.

The Jews who run AIPAC at the expense of America and her people don't want what they're doing common knowledge. *Fortune* magazine refers to them as "calculatedly quiet." The cover-up of Jewish influence in Washington is extremely important to those who hold power because it prevents them from answering questions regarding decisions made in Middle East foreign policy. This especially holds true due to recent events where the unbalanced Middle East foreign policy to the Jews favor created a rash of terrorism on American soil.

On AIPAC's web site they gloat over the politicians they sponsor and how this gains them control over the U.S. government. For example their site contains the following: "A House-Senate conference committee considering the 2002 foreign aid bill approved Israel's aid package of \$2.04 billion in military aid and \$720 million in financial assistance."

Facts About the ADL

ABRAHAM H. FOXMAN
National Director

HOWARD P. BERKOWITZ
National Chairman

Another Dangerous Jewish Lobby in America

The Anti-Defamation League of B'nai B'rith, or ADL for short, is the most powerful pro-Israeli political lobby in the United States. With a budget of almost \$60,000,000 per year and a powerful political network, they wield enormous influence over US political, governmental, and mainstream media activities.

On its official website (www.adl.org), they make the claim... "For more than 88 years, ADL has been combating anti-Semitism and bigotry of all kinds."

This statement represents the very foundation of their typical deception and hypocrisy. In fact for more than 88 years, the ADL has engaged in illegal, criminal, unethical, and un-American activities.

The ADL has been charged with over 4,600 felony counts, and subsequently taken to court, for stealing police documents. They spy on individual American citizens and groups of all political stripes for Israel. The ADL has promoted and enabled widespread censorship, promoted and pushed anti-American legislation, some of which specifically violates American civil liberties, rights and constitutional protections. The ADL has committed smear campaigns against those who speak out against global Jewish and Israeli terrorism, and have received money from and established ties with wealthy criminals and criminal organizations.

In April 2000, William and Dorothy Quigley of Colorado won a \$10.5 million damage award from a federal jury in a defamation lawsuit against the Anti-Defamation League. The jury found that the ADL falsely accused the couple of being anti-Semitic.

We strongly encourage you to verify these facts...

Facts About the Israeli Sex Slave Trade

Poverty has trapped Ukrainian and Russian women in the sex trade. Nathalie, left, and Maya prepare for work at a Tel Aviv brothel. Photographs by Rena Casalegna for The New York Times

What does her future hold?

In economically ravaged Ukraine and other former Soviet states, tens of thousands of young women, some just girls, are lured to Israel with the promise of jobs and security. However, most of the time upon arrival these women are kidnapped by organized Israeli criminals, brutally beaten and ravaged, then sold on the auction block to the highest bidder. Once sold, they usually end up working in brothels where they are subjected not just to demands of sex but any sick fetish up to and including physical torture. This is by no means an exaggeration: the Israeli sex industry is booming and continues to thrive off the growing influx of Gentile women who enter the country sometimes just for vacation. This entire phenomenon seemingly happens while Israeli law enforcement looks the other way despite obvious human rights violations.

“Anna, a 31-year-old physics teacher from the Russian Federation was lured to Israel by the promise of a job in the sex industry earning 20 times her Russian salary. When she arrived, her passport was taken from her and she was locked in an apartment with bars on the windows along with six other women from former Soviet Union countries. She was auctioned twice, on the second occasion for US \$10,000. The women were rarely allowed to leave the apartment and never allowed out alone.

“Much of the money they earned was extorted from them by their pimps.”

Facts About 53 years of Jewish Terrorism and Crimes Against Humanity

Left: Young victims of American-funded Israeli expansionism and violence. Are we to believe that all such Palestinian children are somehow “terrorists”?

- Israel has repeatedly disobeyed UN Resolution 242, requiring it to withdraw from the occupied Palestinian territories.
- Israel has consistently disobeyed UN Resolution 194, requiring that Palestinians be allowed to return to their homes.
- Israel illegally has driven Palestinians from their homes over the past six decades.
- Israel uses torture and assassination as a state policy.
- Israel uses American military aid to commit unlawful acts of terrorism, murder, and genocide against Palestinians in the territories that Israel illegally occupies.

“The uprising you are witnessing today in Israel should not come as a shock. The Palestinian people have had their land stolen from them and have lived under a system of apartheid for many years. As the Israeli League for Human and Civil Rights pointed out in their report, ‘Arab Villages Destroyed in Israel,’ the 475 Palestinian villages that existed before 1948 were reduced to 90 by 1988 - 385 villages were destroyed by Israel. In 1948 the Palestinian population consisted of 1.3 million people and has decreased to 138,000. The report pointed out that the great majority of Palestinians were killed or forcibly expelled or fled in panic – another term for ‘ethnic cleansing.’”

Examine every item in your cupboards for bizarre labels such as (U) or (K), which are registered trademarks of various syndicates such as the Union of Orthodox Rabbis. These symbols represent a Jewish “blessing” or “certification” and unless you are Jewish, it means that you have unwittingly and unnecessarily been victimized by a huge, behind-the-scenes scheme by Jews to make money off a gullible public.

As the Jewish website <http://www.kosherfest.com> openly bragged in its advertisement of the 2001 thirteen Annual Kosherfest, “Kosher is a \$5.5 billion market and growing by 15% a year!” The website further stated that each year, more than \$130 billion of packaged foods and \$300 billion of ingredients produced in the U.S. gets certified kosher.

Contrary to popular belief, Jewish rabbis who certify food “kosher” don’t do it for free. Of that half-trillion dollar pie, Jews take a healthy pound-of-flesh in the form of “certification fees,” as the Union of Orthodox Rabbis calls it on its website.

(See <http://www.ou.org/kosher/application/process.htm>)

At one time, Jews kept a tight lid on any public discussion of how lucrative the kosher certification business is. Nowadays, with the mass media so firmly in their hands, the Jews have little to fear.

The Washington Post of November 2, 1987 quotes rabbi Schulem Rubin from the Bronx as saying, “Kosher doesn’t taste any better; kosher isn’t healthier; kosher doesn’t have less salmonella. You can eat a Holly Farm chicken which sells for 39 cents a pound, and next taste a kosher chicken selling for \$1.69 a pound and not tell the difference. There’s a lot of money to be made. Religion is not based on logic.”

The Union of Orthodox Rabbis recently was made world famous from widespread news reports that its Youth Director engaged in physical, sexual, psychological and emotional abuse of more than 20 girls and boys over the course of his career (almost 30 years of child molesting).

KOSHER SLAUGHTER

THE ONLY EXCEPTION TO THE 1958 HUMANE SLAUGHTER ACT

According to Jewish law, animals are not allowed to be painlessly put to sleep. Instead their Middle Eastern mythology requires that the animals be “healthy and moving,” i.e. fully conscious and aware they are being slaughtered.

For the cow this involves its half-ton body being held upside down by chains wrapped around its legs. This usually results in the cows skin and flesh slipping away from its bone. As the cow twists in pain and terror, it tears its ligaments and ruptures joints.

Next the kosher killer will slit the fully conscious animal’s throat, allowing the blood to drip out until the animal goes in shock or it passes out from lack of blood.

Every time you buy kosher meat at the supermarket it has been slaughtered in this manner. When you see “K” on meat don’t think “kosher”, instead think of the Hebrew word *K’ev*, which is defined as pain, ache, suffering, and sorrow.

In 1992 the American Meat Institute published a statement saying, “The practice of hanging cattle upside-down should be eliminated.”

“The ball is now in your court!”

I have presented you with a substantial amount of facts that the government and media don't want you to know. It bears heavily on the racial, religious, and political issues determining the destiny of our nation and people.

As I mentioned at the outset, this publication was designed to provide you with the facts and was not designed to provide you with the solution. Now, however, I will show you how to obtain the solution. While human beings often have a tendency to complicate things, the solution to these problems is actually quite simple!

Make no mistake though. I do not propose a supernatural solution to the problems these facts present. Instead, we propose a down-to-earth, realistic, and practical approach.

There are two books which you will want to obtain so that you may understand what all of these facts really mean. These books are *Nature's Eternal Religion* and *The White Man's Bible*. They are both available from the Creativity Movement's World Headquarters for a donation of only \$20 for both. Send all donations to P.O. Box 1482 Riverton, WY 82501-1482. These items are also available on the web site <http://www.creator.org/storefront/index.shtml>

The books are an easy read, and you will not want to put them down. They answer many of the “whys” and will inform you on where all of this is leading us as a nation. You have nothing to lose and a world to gain by being informed on the issues that matter most. The future of our nation and the security of our families depend upon concerned Americans being empowered with realistic ways to make a positive change.

I hope to hear from you soon and wish you well!

Yours Truly,

Rev. Matt Hale
